hi-fi and home cinema furniture by kuban

kuban

Embracing both style and function, Kuban has been designed to create a contemporary range of furniture that allows you to enjoy your home cinema without compromising on the beauty of your home.

The range consists of eight different cabinets in two styles with coffee and lamp tables to match. The cabinets are designed to provide stylish storage solutions for Hi-Fi and AV equipment. Each model is available in four real wood finishes.

The KTS 600, KD2.1 and KD3 come with a choice of sandstone, black, chocolate or satin silver acoustically transparent grille cloth. All glass used in the Kuban range is manufactured and toughened to British standard BS6206A.

Every Kuban product is hand-crafted to order in our East Anglian joinery by cabinet makers with over 40 years experience. Therefore we are able to offer a bespoke service to match your exact requirements. All cabinets are delivered fully assembled. For further options on cabinet feet, doors (glass) and dimensions please see www.kuban.co.uk or contact us directly.

The wood veneer and cloth finishes shown are for guidance only. Due to the print process we cannot accept liability for their accuracy.

KFS-400 shown in Maple

KFS-400

Open fronted cabinet

The KFS-400 with its open front and back houses up to four pieces of equipment on adjustable glass shelves. This mixture of wood, glass and brushed stainless steel makes it a very stylish alternative to the traditional hifi rack.

External dimensions:	870	575	520
HIFI Compartment:	675	525	500

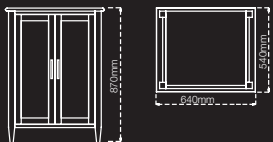

KD-1

Two door upright cabinet

The KD-1 is a single width cabinet with 2 slim solid wood panelled doors and an open back making it ideal for hifi separates and smaller systems. The design incorporates solid wood tapered legs that create an elegant yet contemporary look.

KTD-600 shown in Cherry

KTD-600

Two door cabinet

The sleek design of the KTD-600 beautifully disguises the practicality of this home cinema cabinet. It has slotted shelves and an open back for ventilation and cable access. The shelves are fully adjustable allowing the cabinet to comfortably house at least six pieces of equipment.
